Biography:

Don is a graduate of North Carolina State University with a degree in Civil Engineering and is a licensed professional engineer in the states of NC, SC, VA and MD. With over 20 years of transportation engineering experience he is currently employed with Ramey Kemp & Assoc., Inc. since March 1999. Don was previously employed with various NCDOT Traffic Engineering departments for twelve years.

Currently Don is RKA's Traffic Signal Design Manager. In this capacity, he provides management services for various DOT, City, County and Private Developments requiring the installation of traffic signals and communication interconnections from Maryland to Florida. According to Don, "my main objective is to satisfy an 'aggressive schedule' set by private developers while maintaining a unique relationship with all NCDOT staff".

Notes:
